

Project **Organization of a Focus Event on Community Housing at the Wohnbaufest-  
wochen 2013**

MA 50 – Mi 49594/13

Robert Temel, Raimund Gutmann

At the Wohnbaufestwochen (Housing Festival) of the Administrative Group for Housing, Housing Construction and Urban Renewal from 4 to 22 March 2013 at Architekturzentrum Wien, one afternoon was dedicated to the topic of community housing (15 March). This day was organized and curated by Robert Temel and Raimund Gutmann. Central questions were what types of community housing exist, in what forms they are realized, how far the development already went and what their relevance for the city as a whole is. The event focused on disseminating the principle of community housing in its concrete forms existing in Vienna and on a representation of its situation in Vienna. The spectrum of projects ranges from the integration of groups into „conventional“ housing projects to participatory projects and, finally, building cooperatives.

At the start of the evening, a double lecture on forms of community housing was held by Raimund Gutmann and Robert Temel. After that, a panel discussion on „How do you make it: Community housing“ with (partly future) inhabitants of such projects took place. During the whole event a project fair and an exhibition of realized projects in Vienna was shown.

*Groups participating in the projects fair:*

L.i.S.A., Pegasus, Seestern, B.R.O.T. Aspern, Jaspersn, Que[e]rbau (all Aspern), Gennesarret Liesing, Morgen Wohnen Haberlgasse, frauenwohnprojekt [ro\*sa] im Elften, Aktiv wohnen in der Stadt.
